

Cattlemen's Kind

PRIVATE TREATY BULL SALE

MARCH 11, 2023 | CLARKSTON, WASHINGTON

GELBVIEH, BALANCER & RED ANGUS BULLS

Fellow cattleman and friends:

I would like to start by thanking all our past and future customers. As your seedstock producer, we know the difficult task of selecting quality genetics that work for your operation. We know that everyone has different qualities that they value. We understand that your operations livelihood is ultimately determined by pounds on the truck and we feel a responsibility to do our part by helping you wean heavier calves, better carcass quality and trouble free mother cows. We work to identify and produce cattle that optimize performance and minimize production obstacles in your herd as well as ours. At the end of the day, the cattle business is about you, our friends and partners.

This is a set of bulls that we are extremely excited about, they are the “Cattlemen’s Kind.” These bulls are designed with thickness, fleshing ability, length and will keep their condition while breeding cows. These bulls have been developed on free choice Bull Challenger and grass hay for moderate gain. It is our goal for these bulls to remain sound, problem free and to become long term genetic contributors to herds that they go into. These bulls are never pushed hard. The quickest way to ruin a bull is to push them too hard, our bulls have been managed to be fit not fat.

We believe that it all starts with the mother cow. We strive to produce females that have longevity and are sound, fertile, easy fleshing with good dispositions and udders. We welcome anyone to come visit and see the dams of the bulls. We know that if you are keeping replacement females it is vital to see the mothers of these bulls. These bulls are backed by generations of highly productive females that have stood the test of time.

As always we offer free delivery within 350 miles and will work with you to find the most cost effective shipping beyond that. We will start delivering bulls April 1, if you need your bull before that simply let us know and we’ll make it happen. We also offer a first breeding season guarantee on all our sale bulls, no questions asked. You bought a bull to breed cows and if for any reason he does not or cannot do that job we will work with you on a sale credit. We offer a volume discount on the bulls; 5% on 5-9 bulls, 10% on 10 or more.

It has been a pleasure hearing all the positive feedback on our bulls. We look forward to seeing you all on sale day. Please feel free to call with any questions you may have. With no further ado we present our 2023 bull offering and express our gratitude for your consideration of our program.

- Pete & Samee

SCHEDULE

SALE DAY - March 11, 2023

10:00 a.m. - Bulls penned for inspection at the Show Barn

12:00 p.m. - Tri Tip Lunch will be provided

1:00 p.m. - Bidding will open

Bidding will begin closing on a per pen basis at no earlier than 1:30 p.m.

CONTACTS

Samee - (509) 566-8805

Pete - (509) 566-7777

Sarah Ryan - (509) 432-1300

HERD HEALTH

All bulls have passed a breeding soundness exam. All Gelbvieh and Balancer bulls are BVD tested negative and parentage confirmed to their sire. Bulls are on a strong vaccination program including a full round of shots at semen testing. 18-month-old bulls will be Trich tested upon request. All are 840 EID tagged.

BULL DEVELOPMENT

Bulls were weaned on to Stress Care and then switched over to Bull Challenger and grass hay. The bulls are fed in a rocky hillside pen to be fit, not fat! They are handled regularly with dogs and are easy to walk through. The coming two-year-old bulls were turned out this last summer and brought back in December 15 and placed on a grass hay and brewers grain diet until sale time. We will continue to feed the yearling bulls until April 1 but would prefer the older bulls make their way to their new homes before the trich tests expire.

VIDEOS

Bulls videos will be hosted at ledgerwoodgelbvieh.com.

GUARANTEES - BEST IN THE BUSINESS

Unconditional first breeding season guarantee against death or injury. If something were to happen to your bull, Ledgerwood Gelbvieh or Rafter C Reds will provide you a sale credit. The credit will be the purchase price minus the salvage value and not exceeding the original value. The end of the breeding season is September 1, unless you have previously made arrangements with Ledgerwood Gelbvieh; all claims must be made by that time. If a replacement bull is needed to finish the season, one will be delivered. We also provide a sight unseen guarantee on any purchase made absentee. If you don't like him when we deliver him, you don't own him.

DELIVERY

We will deliver the bulls the first 250 miles free of charge. Beyond that distance, we appreciate you working with us to meet at central points. New this year we will take \$50 off per bull if he goes home sale day.

HOW DOES THE SALE FORMAT WORK?

The sale is operated as a private treaty opening day. All bulls are priced with a base value, which is listed on a white board. When bidding opens, bids can be placed silent auction style in \$100 increments. We will close the sale one pen at a time. Any bull that does not receive a bid will be available for his base price after the sale.

TAG COLORS

Bulls are tagged according to breed and cataloging. **Green** tag indicates greater than 75% Gelbvieh (GV) and considered a purebred Gelbvieh by the American Gelbvieh Association. **Blue** tagged bulls are Balancers. They are 75% to 25% Gelbvieh, Red Angus or Angus. Bulls carrying a white tag are purebred Red Angus.

Twin View Mayweather has the largest sire group in our 2023 sale. We purchased Mayweather from Twin View Livestock in Canada and partnered with them to promote him so he stayed there to breed and show as a yearling where he went on to be the Agribition champion in 2019. Mayweather's mother is an influential female in Canada and adding her merits to our program only sweetens the deal. We will have many more Mayweather calves here this spring and we are excited for his outcross pedigree, ease of fleshing, and disposition. He certainly excites us for the future!

The Easy Rider calves are all out of first calf heifers as he saw the clean-up duties after AI as well as was used as the AI service sire on several. His calves come small and with a lot of vigor to get up and nurse. They are good boned cattle and have a ton of performance and rib shape. He will have many daughters kept and added to the herd and the bulls in the offering are a very strong set of calving ease bull. We could not be happier with his calves!

Twin View Rush Hour was purchased on a random summer tour/vacation that landed us in Parkbeg, Saskatchewan at Twin View Livestock. That stop was very much the beginning of a great friendship with Joe and Aaron and the beginning of Rush Hour's success at Ledgerwood Gelbvieh. His sheer volume and overall mass at a very young age made him one that I felt would mate very well with our environment and our goals. The offspring in this sale have flat blown us away with the performance, weight per day of age and depth of rib.

2019 I saw my first trip to the historic Kicking Horse Ranch production sale. We have been buying and selling cattle to each other for several years but when I saw Eclipse 74 in the sale catalog, I decided I needed to see him in person. Being a grandson of Chico Loco and having some added phenotype, he was just the right fit. Their cattle run in tough country, and know how to survive; therefore they also thrive in my environment. Eclipse 74 is no exception. His calves have his eye appeal and great structure.

I am always searching for cattle that thrive in environments similar to what we expose them to. I found Hunter in the Maude program in South Dakota. He is a moderate framed bull that is huge middled and has a gentle demeanor. He is big sound footed and a son of the popular Eminence bull. Young bulls get a test run their first breeding season and there will be more Hunter calves next year!

Rampage has been one to watch since day one, he was born a twin, but that never slowed him down. His Time Traveler mother raised this one up right and has found her way to the donor pen. If you like cattle that are big boned, long fronted, smooth as glass with a top you could serve dinner on and top calving ease, this is a sire group you won't want to miss.

- Extremely impressive from an early age, he represented our program in the show string
- Well traveled and widely accepted - Calf Champion and Reserve Overall bull at the NILE in Billings and again at the Red Western Classic, made a lot of friends at Agribition in Canada
- Extraordinary performance at every stage of development but not pushed and still fresh
- His dam is nothing short of impressive putting 3 bulls at the top of the Red Angus offering, never missing AI. She's a beautiful cow!
- Study his EPD profile, study his phenotype, he has HERD BULL written in both!
